

Visual Designer

Location // Magdeburg, Germany

Field // digital health

Experience level // junior || intermediate

Start // May || June 2020

Contract // part-time || full-time

About us

Every 3 seconds someone in the world develops dementia. With an ever-aging population the number of people who suffer from dementia will double by 2030 and more than triple by 2050. The World Health Organization calls dementia a public health priority. However, currently there are no therapies or drugs on the market.

neotiv is a team of scientists, developers and technically passionate people that share a vision to prevent and intervene dementia. We have created a software system to detect early signs of dementia to enable early intervention of the disease. neotiv is a proud spin-off from Otto-von-Guericke-University Magdeburg in close collaboration with the German Center for Neurodegenerative Diseases (DZNE). We are funded by renown investors and science transfer grants that enable us to realize our mission to improve people's lives. Therefore, we are looking for a passionate visual designer who supports our vision and helps implement and test our application with users.

Your responsibilities

- Develop and improve the appearance of our digital products
- Create graphics and mockups
- Conduct usability tests for different target groups
- Maintain a clear documentation & style guides for our developers
- Give input on future features

Your profile

- You have experience with interaction design and visual design
- You are able to work with Sketch
- You have good communication skills in English (and German) and the ability to work with an interdisciplinary agile team
- You have a people-focused design mentality
- You want to design products with a meaningful impact
- A plus: You have experience with creating click prototypes, illustrations or simple animations

What we have to offer

- Work along best in class dementia researchers from leading scientific institutions
- Flexible working hours
- Advanced training in your field of interest
- Casual work environment
- Working on applied projects with the aim to prevent dementia
