Location // flexible in Magdeburg, Berlin or remote

Field // Digital Healthcare (Application)

Experience level // with professional experience

Start // as soon as possible

Working time // full-time, part-time, flexible

About us

Every 3 seconds someone in the world develops dementia. With an ever-aging population the number of people who suffer from dementia will double by 2030 and more than triple by 2050. The World Health Organization calls dementia a public health priority. However, currently there are no therapies or drugs on the market.

neotiv is a team of scientists, developers and technically passionate people that share a vision to prevent and intervene dementia. We have created a software system to detect early signs of dementia to enable early intervention of the disease. neotiv is a proud spin-off from Otto-von-Guericke-University Magdeburg in close collaboration with the German Center for Neurodegenerative Diseases (DZNE). We are funded by renown investors and science transfer grants that enable us to realize our mission to improve people's lives.

Therefore, we are looking for a passionate **Linux-Systemadministrator (f/m/x)** who supports our vision and helps securing our company.

Your responsibilities

- Administration, operation and maintenance of Linux servers (Debian, Oracle-Linux) and client infrastructures (1st level support)
- Administration of Microsoft Office 365 (optional)
- Realization of system integrations
- Supporting the product development team (2nd level support) to achieve best practices in data security
- In-depth knowledge of security measures such as OpenVas, SE-Linux, WAF and VPN desired

Your profile

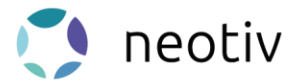

- You have strong knowledge about Linux (Debian) server administration
- You have good knowledge about encryption technologies
- You have some knowledge in virtualization
- You have good communication skills in written and spoken English and German
- You can work independently and are in the same time a strong team player

What we have to offer

- Hybrid working place (on-site in Magdeburg, Berlin and off-site possible)
- A top company recommended by employees
- Flexible working hours and a high amount of vacation days
- Regular online and offline team meetings and events
- Advanced training in your field of interest
- Casual and familiar working atmosphere in an international team
- Working on applied projects with the aim to prevent dementia

Job offer

„Help to prevent dementia“

- Work along best in class dementia researchers from leading scientific institutions
-
